## A Life Saved

Sixteen Months of Awful Suffering

Impure blood is always dangerous.  
Just as soon as you begin to feel weak  
and languid, nervous and depressed,  
you are in danger. Make your blood  
pure and your nerves strong at once.  
Mr. Thomas H. Cashel, of Dripstone,  
New South Wales, Australia, sends us  
this letter, with his photograph:

was suddenly taken very ill and for three  
weeks was delirious nearly all the time, and  
my life was despaired of. The doctors said it  
was blood poisoning. For many long weeks I  
suffered the most frightful agony; the poison-  
ing all settled in one limb. I then went to  
Sydney Hospital, where dead pieces of bone  
were taken from my leg. But I grew weaker  
and weaker, until I could hardly raise my  
hand. I then left the hospital, believing I  
must surely die. Then my people bought me  
a bottle of

AYER'S  
Sarsaparilla

It did me good at once. In all I used fifteen  
bottles. Without doubt it saved my life, even  
after sixteen months of suffering.

Take Ayer's Pills with the Sarsaparilla.

## COMMERCIAL.

FINANCIERS SEE in the future a tight money market brought about by the  
Legislature's failure to provide for the expenses of the Government. Busi-  
ness men of the city comment on the matter plainly and say that if the  
Legislature continues to prevent the Territory from obtaining money for the  
depleted Treasury it will beget a lack of confidence in business circles which may  
be felt by the business community in general. A prominent man, who has the  
care of many large estates devolving upon him, and who is in a position to  
watch the swing of the financial pendulum, says of the present situation:

"The Legislature is composed for the greater part of incompetents who  
have obstructed, from political motives only, the passage of measures conducive  
to the welfare of the Islands. Their obstruction has taken the course of an-  
timosity toward the Government and a childish opposition to passing a Loan Act  
by which the Territory can obtain funds.

"If the legislators were men who understood business affairs and the causes  
and effects of a financial stringency, they would take the Appropriation bills  
and pass upon them in a businesslike and common-sense manner, and, after see-  
ing just how much money was needed, would pass an Act to obtain money by a  
loan. Such a course would beget confidence. The money market is tight, and  
if the Legislature continues to follow its past methods, it will become still tighter.  
Several concerns which are now in a position where a slight pressure upon the  
present and a chance to recoup for the future. But just now cash payments of  
the Government are withheld and these concerns are not enriched by the receipt  
of registered warrants, which they cannot cash. Let the Legislature show that  
it intends to act upon the appropriations in a businesslike manner and pass a  
Loan Act, and there will be renewed activity in commercial and financial circles."

RAPID TRANSIT MAKING READY TO RUN ITS CARS.

Work in the power-house of the Rapid Transit Company has progressed to a  
point where the management can predict that cars will be running upon the  
tracks now laid in the city within thirty days. The outside work of stringing  
trolley and feed wires is progressing rapidly, while the boilers have already pro-  
vided themselves to be in excellent condition. The engines will be given a trial to-  
day, after which all the minor details for running the dynamo will be made.  
The larger part of the work of installing the electric railroad has been accom-  
plished and nothing now remains but to push the work on small matters in  
each department. Eight of the large tubular cars will be in readiness to turn  
out upon the tracks in less than three weeks. They will be painted a marine  
blue and will be about the handsomest cars ever turned out of the shops of the  
American Car Company of St. Louis.

TIGHT MONEY MARKET AFFECTS THE ARCHITECTS.

The architects of Honolulu are enjoying a brief respite from a stress of  
work, which began easing up only last week. For several months the archi-  
tects have had their hands full. They state that the present condition of the  
money market has caused a season of dullness. The plumbers' strike is an in-  
cidental factor in the general slump.

OLD AFONG RESIDENCE TO BE REPLACED BY NEW MANSION.

The old Afong residence on Nuuanu avenue is about to be torn down to be  
replaced by a handsome mansion of modern style. Mrs. Afong went to her  
Waikiki house yesterday to stay until the new house is completed. The almost  
priceless curios and furniture with which the house is furnished will be re-  
moved soon and the building turned over to the wreckers. The old house was  
built by Mr. Afong in 1865 and has been one of the most commodious of the fine  
homes on Nuuanu avenue. Some of the most brilliant receptions ever given in  
Honolulu in former years, took place in the Afong residence.

WILLIAMS, DIMOND & CO.'S SUGAR CIRCULAR.

Williams, Dimond & Co., in their sugar circular of June 14, which arrived  
yesterday on the Gaelic, report no change in prices since May 3. Their circular  
is as follows:

Sugar.—No changes have since occurred in the local market or for export to  
Honolulu, prices established May 31 still being in force.

Basis.—June 10th, spot sale, 900 tons, at 4-14c; 11th, no sales; 12th, cost and  
freight sale, 600 tons, at 4-14c, since which no sales, establishing basis for 95¢ de-  
gree centrifugals in New York on that date 4.25c; San Francisco, 3.875c.

London Beets.—June 10th to 12th, 9s 3-4d; 12th, 9s 4-12d; 13th, 9s 3-4d.

Dry Granulated, New York.—No change.

London Cable, June 8th.—Quoted Java No. 15 D. S., 11s 9d; fair refining, 10s  
3d; same date last year, 13s 1-2d and 12s respectively. June beets, 9s 3-4d,  
against 10s 11-14d same date last year. July beets, 9s 4-12d, against 10s 11-14d  
same date last year.

Eastern and Foreign Markets.—Latest mail advices from New York, under  
date of 8th inst., indicate a dull and featureless market for raws, but centrifu-  
gals have maintained their price on moderate transactions at 4-14c, basis 95  
degrees, or its parity. Arrivals of Muscovados in abundant quantities are an-  
nounced, but buyers are scarce and concessions in price demanded. European  
beets are easier and at present there appears to be little or no inquiry either  
from this country or the United Kingdom. Favorable weather conditions are re-  
ported throughout Europe. Refined is in better demand, with shadings in cer-  
tain grades, and it would seem that the improved weather conditions are con-  
ducive to an increased consumption.

Latest Statistical Position.—Willett & Gray report, June 6th, United States  
four ports in all hands, estimated June 5th, 236,802 tons, against 183,581 tons  
same time last year. Six principal ports Cuba, estimated June 4th, 173,000 tons,  
against 75,190 tons same time last year. Total stock in all principal countries, by  
cable June 6th, at latest uneven dates, 2,028,802 tons, against 1,745,236 tons; in-  
crease over last year 310,566 tons.

### A Criminal Indicted.

NEW YORK, June 14.—Prosecutor  
James S. Erwin, of Hudson county,  
N. J., has completed a long consulta-  
tion with the Rev. John Keller, of Ar-  
lington, N. J., in regard to the trial of  
Thomas G. Barker, who is under in-

## MOTHER AND CHILD

Let the mother take Scott's  
emulsion of cod-liver oil for the  
two; it is almost never super-  
fluous.

One can eat for two; but  
nourishing two is a different  
thing; it implies a degree of  
interior strength not often  
found in woman of either ex-  
treme.

Luxurious people are not  
very strong by habit, and over-  
worked people are weak from  
exhaustion in some of their  
functions. Between the two  
is the happy mean; but how  
many women have plenty of  
life for two?

The emulsion is almost  
never superfluous.

We'll send you a little to try if you like.

SCOTT & BOWNE, 409 Pearl Street, New York.

The Sanitary Steam Laundry
